

"I am an old man—and many of my troubles never happened."—ELBERT HUBBARD

THE white hair and wrinkled faces of our busy men and women tell of doubt, fear and anxiety—more than disease or age. Worry plays havoc with the nervous system—so that digestion is ruined and sleep banished. What oil is to the friction of the delicate parts of an engine—

DR. PIERCE'S Golden Medical Discovery

is to the delicate organs of the body. It's a tonic and body builder—because it stimulates the liver to vigorous action, assists the stomach to assimilate food—thus enriching the blood, and the nerves and heart in turn are fed on pure rich blood. Nervousness, the cry of starved nerves for food. For forty years "Golden Medical Discovery" in liquid form has given great satisfaction as a tonic and blood maker.

Now it can be obtained in tablet form—from dealers in medicine or send 50 one-cent stamps for trial box. Write E. V. Pierce, Buffalo.

DR. PIERCE'S PLEASANT PILLS
Relieve constipation, regulate the liver,
and bowels. Easy to take as candy.

HOME CIRCLE COLUMN.

COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE AT EVENING TIDE.

Pass on the praise.

There are a great little wife and I know what I would do with you. And as she spoke he put his arms about her, and she forgot all the care in that moment. And forgetting all, she sang as she washed the dishes and sang on as she made the beds, and the song was heard next door, and a woman there caught the refrain and sang on, and two houses were happier because he had told her that sweet old story of the love of a husband for a wife. As she sang the butcher boy who had called for the order heard it, and went out whistling on his journey, and the world heard the whistle, and one man hearing it thought here is a lad who loves his work, a lad happy and contented.

And because she sang her heart was mellowed, and as she swept around the back door, the cool air kissed her cheeks, and she thought of a poor old woman she knew, and a little basket went over to that home with a quarter for a crate or two of wood.

So because he kissed and praised her the song came, and the influence went out and out.

Pass on the praise.

A word and you may make a rift in the cloud, a smile and you create a new resolve, a grasp of the hand and you may repress a soul from hell.

Pass on the praise.

Does your clerk do well?

Pass on the praise.

Tell him that you are pleased, and if he is a good clerk he will appreciate more than a raise. A good clerk does not work for his own sake.

For if the child is good, tell him so; if he is better tell him so. Thus you see, good, better, best.

the praise now. Pass it home. Don't plead, "Hear me, I was a kind mother, I washed away many a rug-burner."

Those eyes cannot see earnestness in yours. They may not return the ent

brace you wish to give. Why call so late? Pass on the praise to-day.

What We Owe Mother.

How much we owe to the mothers of the world all biography teaches us. In the memories of every great and good man the first figure which rises before us is that of the mother. We see her watching by the sick bed, listening to the childish prayer, assisting in the childish games, encouraging the childish studies, moderating youthful ardor by the counsels of experience, inspiring hope and energy in the hour of depression, and ever maintaining—

The constant flow of love that knows no fall.

It is the mother of the family who warns and comforts and commands. It is she whose resources should be equal to any emergency, whose sympathy should unlock the sympathies of every heart. It is she whose self-abnegation must always be forthcoming, whose watchfulness must never fail, whose affection must triumph over every discouragement, and whose patience must be as inexhaustible as her affection. Her character in a word, must combine all these qualities which the poet attributes to the perfect woman—

The reason firm, the temperate will, Endurance, foresight, strength and skill.

How little we know of life. The dust under our feet which we think of with scorn if we think of it at all—to it we owe our life, and the joy that comes when we contemplate the beautiful in nature. The bird on the wing, the blade of grass the worm that crawls across our pathway, each has a knowledge of nature that we can never possess. Exalted as man is, the ruler of all things of the earth, his ignorance of the varied forms of life is enormous. The farther he gets from nature the more stupid he becomes. His joys lessen daily. Are not the joys of life made up of the simple, natural things? Health and love and a clear conscience—these cannot be bought. Without them the world is a prison and life a burden. In the rush and struggle of a large city, in the fierce fight for place and wealth it is difficult to keep the conscience untainted, and there is little time for love. And for health, do we not

need the pure, invigorating air that blows across open fields and through pine forests, the quiet, the purity, and the serenity of country life?

Nothing impresses us more than the lack of enjoyment some parents have during the children's happiest days. Either conscience to tyrannizes over them that they have no real pleasure, or they are haunted by a fear that some evil will befall their darlings, or the cares of life are so clamorous and incessant that they have no respite from their stress and strain. While the children are young and we are young with them, let us take the sweetness which belongs to us.

Don't Let Baby Suffer with Eczema And Skin Eruptions.

Babies need a perfect skin-covering. Skin eruptions cause them not only intense suffering, but hinder their growth. DR. HOBSON'S ECZEMA OINTMENT can be relied on for relief and permanent cure of suffering babies whose skin eruptions have made their life miserable. "Our baby was afflicted with breaking out of the skin all over the face and scalp. Doctors and skin specialists failed to help. We tried Dr. Hobson's Eczema Ointment and were overjoyed to see baby completely cured before one box was used" writes Mrs. Strubler, Dubuque, Iowa. All druggists, or by mail, 50c.

PFIFFER CHEMICAL CO.

MINE SANITATION.

The United States Bureau of Mines has organized a division which will deal with the question of mine sanitation.

The bureau heretofore has been giving its attention to the betterment of conditions inside the mines. It has been determined to look after outside conditions also, and to do something for the welfare of mining towns and villages. This is to be done by means of illustrated lectures, moving picture exhibits and the circulation of literature appropriate to the subject of mine sanitation.

Most of the mining villages are in need of something of the kind. Commonly they spring up like mushrooms and some of them are about as insubstantial as that familiar fungus product. The water supply frequently is poor, and even dangerous. The houses are meagerly furnished with the conveniences of life and the sanitary surroundings are most unsatisfactory.

As a rule mining towns are built and practically owned by mining companies. As the Bureau points out in a recent statement, the initiative in maintaining clean and wholesome conditions rests entirely with the operators. "The residents have no official voice in the government of the town and unofficial aggressiveness is seldom exerted because the total absence of property rights breeds irresponsibility and carelessness." Sanitation, of course, is as important in a mining town as elsewhere. Fortunately this fact seems to be gradually impressing itself upon the operators. Of late years we have heard a great deal about model mining camps. True, they are not as numerous as they should be, but there is marked improvement in the towns that are being built nowadays as compared with those of the past.

The Bureau of Mines can do good work in impressing both miners and operators with the desirability and the economic importance of sanitation.

GAY, W. VA.

Work here is very good under the supervision of H. S. Gay, Jr. The Holden base ball team played the Logan Reds a nice game Sunday. Score 6 to 2 in favor of Logan Reds.

The Rev. W. S. Bradshaw, formerly of Chillicothe, O., filled his position in the pulpit of The First Missionary Baptist church of Logan with much credit, both to the cause of Christ and to those who were fortunate enough to hear him Sunday evening.

D. C. Kirk, Everett, Roy and Demp Kirk, have gone to Kentucky to join in a family reunion. Mr. Kirk has lived here and in Logan for over 8 years. He has proved to be a first-class electric powerhouse engineer and since a first-class chauffeur for E. C. Boal's, of Logan.

The Logan city graded, and high schools began Monday. It is expected the schools of Logan will surpass any previous records for good work accomplished.

ONE WHO READS THE NEWS.

Tutt's Pills

stimulate the TORPID LIVER, strengthen the digestive organs, regulate the bowels, and are unequalled as an

ANTI-BILIOUS MEDICINE.

In malarial districts their virtues are widely recognized, as they possess peculiar properties in freeing the system from that poison. Elegantly sugar coated.

Take No Substitute.

KENTUCKY TUBERCULOSIS COMMISSION.

On the 1st day of September the Health Exhibit Car of the State Tuberculosis Commission completed 65 days of work. It covered all the towns on the L. & N. road from Louisville to Springfield, Greensburg and Rowland, and the towns between Maysville and Ewing. 42 towns were reached, and over 18,000 people have entered the car, or attended the evening illustrated lectures in outside halls.

The intention of the Commission was to make this car an inspiration to every community to attack, not only the problem of consumption, but also whatever particular need the community has. At Lebanon, for instance, it was discovered that the most pressing need in the community is the building of a sewer system. At present, the sewage of the city is discharged into a small town, and is a continuous nuisance.

A health league was formed at Lebanon which will endeavor to direct public opinion toward the necessity of building a sewer system of some sort. At Maysville, under the inspiration of the Commission, the citizens have been organized into a public health league. The Commission will pay the salary of a visiting nurse in Maysville for 2 months. This nurse will be under the general direction of the league, and will endeavor to discover all of the cases of tuberculosis in Maysville and the nearby country which ought to be under observation. Should her work reveal the necessity for continued nursing service, the league will undertake to retain the services of a nurse further.

It is impossible to estimate the amount of good done by the Car. In numerous instances consumptives, or their families of consumptives, have visited the car to receive expert guidance in regard to the home care of the disease. As it is the policy of the Commission to endeavor to prevent consumption rather than to cure it, a specialty has been made of work with the children, who are carefully instructed concerning the avoidance of all communicable diseases.

Strengthen Weak Kidneys.

Don't suffer longer with weak kidneys. You can get prompt relief by taking Electric Bitter, that wonderful remedy praised by women everywhere. Start with a bottle to-day, you will soon feel like a new woman with ambition to work, with your feet of palm. Mr. John Dowling, of San Francisco, writes: "Gratitude for the wonderful effect of Electric Bitter prompts me to write. It cured my wife when all else failed." Good for the liver as well. Nothing better for indigestion or biliousness. Price, 50c. and \$1.00 at Louisa Drug Co.

DEMONSTRATION IN THE USE OF CHOLERA SERUM AT THE STATE FAIR.

Arrangements have been made with the State Commissioner of Agriculture whereby the Kentucky Agricultural Experiment Station will give a practical demonstration in the method of administering hog cholera serum, at the State Fair. This demonstration will be given on Thursday, Sept. 18, at 10 a. m., on the State Fair grounds, and should prove of interest to all farmers and hog raisers in the State. In addition to the demonstration, practical talks will be given on hog cholera, its diagnosis and post mortem lesions, the care of sick and well hogs, the work of the hog cholera serum laboratory and State and Federal laws governing the quarantine and control of hog cholera, by Dr. Robert Graham, Dr. J. H. Kastle, Director of the Kentucky Agricultural Experiment Station, Commissioner Jno. W. Newman, and others. Altogether this meeting promises to be one of great interest to all farmers and hog raisers and should prove one of the most instructive and valuable features of the State Fair.

NOTICE.

The Big Sandy Milling Co., now has in charge of its mill an expert miller of thirty (30) years experience, who has thoroughly overhauled the mill and put in new machinery of latest type. He will be permanently in charge and now will make the highest grade of flour. Your satisfaction guaranteed.

MEN IN CHARGE OF STATE FAIR

Human Cogs in Big Wheel of Kentucky's Greatest Show

WORK IS FULLY OUTLINED

Each Division of the State Fair Will Be Under the Direction of a Member-in-Charge and a Capable Superintendent.

Louisville, Ky.—(Special.)—The powerful and efficient operation of a gigantic piece of machinery is dependent upon its smallest cog, and it is also true that the intricate movement of a great enterprise like the Kentucky State Fair is equally dependent for smooth and successful running upon the various human cogs forming its operating force.

For the eleventh annual State Fair, to be held next September 15-20, there are already in only two departments parts and subsidiary cogs in active and united operation, all working toward the most brilliant and successful enterprise of the kind that Kentucky has ever known.

The twenty-two departments embrace an enlarged area of exhibit, each department being presided over by a member of the State Board of Agriculture, who is styled the member in charge, and under the direction of each member in charge there is one or more superintendents, who have active supervision over the various exhibits and the personal welfare of exhibitors and visitors to their domain.

The departments and their superintendents have been allotted in accordance with the appended list, and already there is the friendliest and most commendable rivalry among the heads and their assistants looking toward the success of their particular field of operation.

The various departments, with their heads, are as follows:

Horses—Commissioner J. W. Newman, Frankfort, member in charge; Guthrie Wilson, Bardonia, superintendent.

Mules and Jack Stock—James M. Terry, Cynthiana, member in charge; Guthrie Wilson, Bardonia, superintendent.

Beef Cattle—R. J. Bassett, Leitchfield, member in charge; W. R. Moore, Jr., Glendale, superintendent.

Dairy Cattle—Prof. J. H. Kastle, Lexington, member in charge; Charles Bright, Eminence, superintendent.

Swine—J. L. Letterle, Harrods Creek, member in charge; L. C. Owens, Jeffersonton, superintendent.

Sheep and Goats—H. M. Frohman, Ghent, member in charge; W. T. Chilton, Campbellburg, superintendent.

Poultry and Pigeons—G. N. McGraw, Bayou, member in charge; Harris Lehman, Midway, superintendent.

Dogs—C. R. Van Meter, Lebanon, member in charge; H. M. Wood, Ance, superintendent.

Vegetables and Melons—J. L. Letterle, Harrods Creek, member in charge; Charles Scholtz, Louisville, superintendent.

Field Seed and Grain—G. N. McGraw, Bayou, member in charge; H. C. Love, Bayou, superintendent.

Flowers and Plants—Judge Frank P. Seabee, Carrollton, superintendent; E. S. Rowe, Springfield, assistant superintendent.

Horticulture—Fred R. Blackburn, Stanton, member in charge; W. W. Thompson, Lexington, superintendent.

Plants and Flowers—H. M. Frohman, Ghent, member in charge.

Women's Department—Commissioner J. W. Newman, Frankfort, member in charge; Mrs. H. B. Walcott, Shelbyville, superintendent.

Farm Implements and Machinery—R. J. Bassett, Leitchfield, member in charge; T. Beale Murray, superintendent.

Minerals and Forestry—Fred R. Blackburn, Stanton, member in charge; J. E. Barton, state forester, Frankfort, superintendent.

Students' Judging Contest—H. M. Frohman, Ghent, member in charge; E. W. Young, Shelbyville, superintendent.

Education—Prof. J. H. Kastle, Lexington, member in charge; T. R. Bryant, Lexington, superintendent.

Speed—C. R. Van Meter, Lebanon, member in charge.

Dairy Products and Apiary—Prof. J. H. Kastle, Lexington, member in charge; Prof. J. J. Hooper, Lexington, superintendent.

Farm Boys' Encampment—G. N. McGraw, Bayou, member in charge; Prof. H. B. Hendricks, Lexington, superintendent.

Babies' Health—Commissioner J. W. Newman, Frankfort, member in charge; Mrs. John L. Woodbury, Louisville, superintendent.

MAGNIFICENT PRIZES

A magnificent silver trophy, worth \$125, donated by the American Saddle Horse Breeders' Association, and prize of \$175 will go to the practical "Little Farmers" of the state in the Students' Judging Contest, which will be one of the most important and interesting adjuncts to the Kentucky State Fair, to be held in Louisville next September 15-20.
